PROFESSIONAL SUMMARY

Highly motivated Software Engineer and Machine Learning specialist with expertise in Python, Java, and Full-Stack Development. Proven track record of delivering scalable solutions, including a 92% accurate NLP system and automated workflows that reduced manual data overhead by 80%. E-YUVA Innovation Grant recipient with a focus on building efficient, user-centric applications.

TECHNICAL SKILLS

Languages: Python (Advanced), Java, SQL (MySQL, MongoDB), HTML5, CSS3
Backend & Frameworks: Flask, RESTful APIs, Streamlit, Selenium, Multi-threading, Docker, Git
Data Science & ML: Scikit-Learn, Natural Language Processing (NLP), Pandas, NumPy, Feature Engineering, EDA
Tools & Cloud: AWS Cloud Quest, VS Code, Google Cloud (LLM), Figma, GitHub Actions

EXPERIENCE

Data Analyst Intern

Bluestock Fintech

- Engaged in a **Data analyst** internship at **Bluestock Fintech** focusing on data analysis and reporting.

Present

Pune, India

Machine Learning Intern

Cybernaut Education Technology

- Developed an NLP-based Fake News Detection system achieving **92% accuracy** across a dataset of **10,000+ records**.
- Optimized Credit Card Approval precision by **15%** through advanced feature scaling on **5,000+ customer profiles**.
- Architected a Boston Housing Price prediction engine using Linear Regression, achieving high R-squared performance metrics.

Oct 2025 – Nov 2025

Karur, India

Python Development Intern

Cybernaut Education Technology

- Automated complex data extraction via Selenium, reducing manual processing time by **80%** and scaling data volume **5x**.
- Engineered a Flask Job Portal backend supporting **500+ concurrent users** with 30% faster query response times.
- Implemented multi-threading protocols, increasing web scraper throughput by **40%** while maintaining 100% data integrity.

Aug 2025 – Sep 2025

Karur, India

UI/UX Design Intern

CodSoft

- Drafted high-fidelity **Figma prototypes** for 3+ web applications, focusing on accessibility and 100% mobile responsiveness.
- Streamlined interface designs for digital menus, leading to a projected 20% increase in user engagement metrics.

Jul 2024 – Aug 2024

Remote

PROJECTS & COMPETITIONS

Vita Gait Sensor | IoT, HealthTech, Python, Data Visualization

- Led the Smart Wearable Sock project, securing a **Govt. of India E-YUVA Innovation Grant** for technical feasibility.
- Identified **5+ gait abnormalities** using statistical analysis, enabling 30% faster early-stage medical diagnosis.

Jan 2025 – Mar 2025

Smart India Hackathon: Manual Vacuum Toilet | Sustainability

- Developed a system that slashed water consumption by **70%**, saving an estimated **2,000+ liters of water annually**.

2024

ACHIEVEMENTS

- Innovation Grant:** Principal Investigator for E-YUVA Grant; managed sensor-based data analytics research.
- Academic Excellence:** Secured NPTEL certification in Java, demonstrating strong knowledge of core Java concepts and programming fundamentals.

EDUCATION

PSNA College of Engineering and Technology

B.E. in Computer Science and Engineering; **CGPA: 8.53/10**

Dindigul, India

2023 – 2027

NSVV Matriculation Hr. Sec. School

Higher Secondary Certificate (HSC); **91.33%**

Dindigul, India

2022 – 2023

CERTIFICATIONS

Machine Learning & Image Processing (thingQbator) | LLM (Google Cloud) | AWS Cloud Quest | MongoDB Certified | Infosys certification.
